CATEGORIES – MAKING A CHOICE

WHAT WE'RE LOOKING FOR

We're looking for you to say to our Judging Panels that *"We implemented a great initiative that has enhanced our customers' experience and our organisation's results - here's the proof and we deserve recognition for it!"*

A "great initiative" might be a project, or group of projects or a broader business initiative that maybe took place over a longer period of time, not necessarily in a defined project timeframe. It should be something that resulted in a tangible results and business improvement whilst also benefiting the organisation.

THE CATEGORIES

- There are 34 Categories divided into 18 Sector Categories, 11 Discipline Categories, 5 People Categories. There are also an additional two categories for Overall scores in the Sector and Discipline Categories.
- The scoring criteria for all Categories are the same - although the content of Entries will need to be amended to fit the context of the Category(ies) entered e.g. to tell the story from an organisation, team or individual standpoint. Please therefore be mindful that, because telling the story in the context of the Category entered is important, if you make multiple nominations, you probably won't just be able to "cut and paste" the content.
- Please therefore be mindful that, because telling the story in the context of the Category entered is important, if you make multiple Entries, you probably won't just be able to "cut and paste" the content.

GUIDANCE ON CHOOSING A CATEGORY (IES)

Consider the Sector Specific Categories

Everyone should think about making an entry into one of these Categories.

Choose the Category which seems to fit best.

Don't get too hung up on whether there is an exact fit between the initiative and name of the Category. Entries will be judged on the initiative submitted, not the degree to which they fit with the Category name (but obviously there needs to be some link between the initiative and the broad meaning of the Category title).

Consider the Discipline Specific Categories

Depending on the initiative, either one or more of these Categories might well be a good fit.

Choose the Category which seems to suit the initiative best.

Again don't get too hung up on whether the Category sounds an exact fit, so long as the broad meaning of the Category title resonates in some way with the initiative being nominated.

Consider the People Specific Categories

These Categories in particular require you to meld your entry to the particular context of the Category.

Choose the Category which seems to fit best.

Across all the People Categories we are looking for "great initiatives" that impacted both the employees and the business results – however the angle that the story is told is likely to be different from the Sector or Discipline Specific Categories. For example, the story might be about how one person saw an opportunity, took the initiative and drove the changes themselves to deliver a great customer experience that helped the business too.
